

# Updates on Novel Coronavirus (2019-nCoV)

Dear Fellow Union Members,

NTUSU understands that Singapore has raised its **Disease Outbreak Response System Condition (DORSCON)** level to **Orange** from Yellow earlier today, in response to the several cases of novel coronavirus without any links to previous cases or travel history to mainland China.

DORSCON Orange means that the disease is deemed severe and spreads easily from person to person, but **has not spread widely and is being contained**.

NTUSU is currently monitoring the novel coronavirus situation closely with the school management and will be stepping up precautionary measures. We would like to remind students of the following:

## **Large-scale Events**

Should you have plans to organise any large-scale events, please ensure that you practice additional precautionary measures:

- Ensure minimal interaction and contact between all participants.
- Remind all participants not to attend the event should they feel sick.
- Provide an alternative platform participants to attend (i.e Live streaming, video recording, etc.).

## **Temperature Taking**

All students should take their temperature at least twice daily, and anyone with a fever or is unwell should see a doctor immediately. Additionally, temperature taking stations will be set up across the NTU campus premises as an extra precautionary measure.

Individuals who are unwell, on Leave of Absence, or have recent travel history to mainland China should not attend all classes and events on campus.

## **Travel Declaration**

Please look out for a **compulsory** follow up travel declaration form that will be sent out to all students on Monday. Please ensure your completion of the form as soon as possible. We seek your understanding and cooperation.

## **Contact Tracing**

There will be more contact tracing measures on campus as a precaution of local transmission. Please help to **play your part** by completing the follow up travel declaration that will be sent out next week. More measures to follow.

NTUSU would also like to remind students to follow the MOH advisory to remain vigilant and adopt good personal hygiene practices at all times.

Should you feel unwell, please seek medical attention early at Fullerton Healthcare @ NTU or the nearest General Practitioner.

For more updates on the novel coronavirus situation, please visit [www.moh.gov.sg](http://www.moh.gov.sg). NTUSU will also be updating our social media channels (via our [Instagram](#),

[Facebook](#) and [Telegram channel](#)) regularly to inform students on the developments and measures taken by NTU.

Should you have any concerns or queries regarding the matter, please write in to [su-feedback@e.ntu.edu.sg](mailto:su-feedback@e.ntu.edu.sg) or <http://SAOstudentsupport@ntu.edu.sg>.

Warmest regards,  
NTU Students' Union (NTUSU)
